

BRACCO FELLOWSHIPS

EDUCATION IN RESEARCH

ENROLMENT FORM

Name of Institution: Pediatric Radiology Department, University Hospital of Marseille

City and Country of Institution: Marseille, France

RESEARCH GROUP: Prof. Philippe Petit co-leader of the ESPR GI-GU Task Force

TITLE OF PROPOSED RESEARCH PROJECT: Establishing pediatric post liver transplant imaging protocols across Europe

OBJECTIVES

- to train skills in general research methodology to equip the participant with a solid understanding of different research designs, sampling techniques, data collection methods (e.g. surveys, interviews) and data analysis approaches
- to convey knowledge in how to develop questionnaires, tailored to consensus-building
- to provide instruction in how to analyze qualitative data and identify areas of agreement or disagreement on experts' opinions
- to foster communication and presentation skills in a foreign environment

APPLICANT'S DUTIES

- collaborate in a multidisciplinary research team
- coordinating communication and data exchange between different institutions
- presentation of the project in the hosting pediatric radiology department
- creation of a related scientific article

APPLICANT'S BENEFITS

- collaborating in a multidisciplinary team in a university hospital in France
- get to know a new scientific work environment
- Participation on scientific outcomes of the project on the ESPR

- Project Leader: Prof. Philippe Petit

- Members:
 - pediatric radiology department of the University Hospital of Marseille
 - Dr Audrey Aschero - Dr Harmony Pico - Dr Margaux Bertrand
 - Dr Alexia Dabadie - Dr Catherine Desvignes
 - Dr Aurelie Grandmougins - Dr Antoine Martin-Champetier
 - Pr Olivier Boillot Hepatic pediatric surgeon
 - Dr Bertrand Roquelaure Pediatric Hepatologist
